CULTIVATE

a premier parallel expanded learning initiative

Program Description

Programs

In this producer beat making class, students explore the structure of beat production, focusing on crafting captivating rhythms and melodic transitions. Students will delve into music theory and connect with aspiring producers to collaborate and refine their sound. Throughout the class, students develop essential 21st-century skills, including digital literacy, creativity, collaboration, adaptability and analytical skills. With expert guidance from practicing artists, students will gain the confidence and expertise to produce emotionally resonant beats, and by the end of the course, students will have a portfolio of polished tracks ready to showcase their unique style.

AYICON ARTS: is an explorative art program that focuses on culturally relevant artistic expressions through various mediums, themes, and activities. Students will connect through pushing the boundaries of creativity, self-expression, collaborative art projects, and experimentation.

TITAN

TITAN: is a premier team sports program designed to instill determination, strategic thinking, and relationship building among its participants. Through rigorous training and challenging competitions, athletes learn the value of hard work, dedication, and drive, while fostering a strong sense of grit. Our program emphasizes the importance of teamwork and resilience, preparing players to excel both in their sport and in their personal lives.

MasterMine leadership: The Peer-Led Boys Leadership Club is a vibrant program run by high school seniors for elementary and junior high school boys. MasterMine focuses on developing leadership skills, emotional intelligence, and personal growth through a culturally relevant curriculum.

LRC Academy is a Literacy and Reading Comprehension tutoring program that focuses on closing the achievement gap through inclusive, culturally relevant literacy and reading comprehensive practices. LRC's goal is to maintain an enriching supportive environment that boosts academic performance while also nurturing social and emotional growth through engaging reading and writing activities. LRC provides comprehensive academic support and resources, empowers scholars by amplifying their voices, and fosters a strong sense of community and school culture. Students will learn valuable tools such as goal setting and reflection, embracing challenges, positive self-talk, and learning from feedback.

Carver Academy: is a Entrepreneurship/Agriculture/Steam class that explores the exciting intersection of science, technology, and agriculture through hands-on learning and innovation. Students will be immersed in soil science, plant biology, and sustainable farming, while also leveraging cutting-edge technology to transform agricultural practices and cultivate the entrepreneurial mindset essential for success in the rapidly advancing field of agriculture. With inspiring field trips to local BIPOC-owned farms, students gain real-world insights and entrepreneurial skills, cultivating a passion for both STEAM and sustainability.

HOOPS: is an a dynamic basketball program dedicated to enhancing agility, mastering fundamental skills, and developing leadership qualities in players of all levels. Through a structured curriculum and challenging drills, participants build essential skills while fostering a strong sense of grit and resilience. Our program aims to cultivate well-rounded athletes who excel both on and off the court, embodying the spirit of teamwork and determination.

STITCHED: is a Brand creating / T-shirt design program that is tailored to ignite the passion for branding and design in young individuals. Our program offers a dynamic platform for youth to explore their creativity, develop practical skills, and gain invaluable insights into brand identity. It is designed to foster creativity, critical thinking, and practical skills that are essential in today's digital age.

POD U: An innovative podcasting class that equips students with essential 21st-century skills such as media literacy, creativity, critical thinking, digital communication, and problem-solving. Students will master advanced communication techniques and the technical aspects of podcasting, including production and interviewing, while developing a strong personal brand and a deep connection with their audience. By blending theory with hands-on practice, students will gain the confidence and competence to create engaging, professional-quality podcasts that truly resonate.

NOTES: is a songwriting course, where students will explore the structure of songwriting, mastering the art of crafting catchy lyrics and melodic hooks while learning to write with emotion and confidence. Through expert guidance from practicing artists and songwriters, students will connect with peers, deepen their understanding of modern music theory, and advance their composition skills. Alongside of creating music, students will develop key 21st- century skills, including problem-solving, adaptability, innovation, self-direction, and cultural awareness.

ENIGMA: is a content academy, a workforce development technical training program that focuses on digital media, art, brand development, and content creation. It prepares students for entrepreneurial opportunities, exposes them to various art and media fields, provides training in the content and media industry, and familiarizes them with various media technologies. Enigma's goal is to give Sacramento a voice, celebrate excellence in the community, and create a platform for students to tell their own stories and control their own narratives.
